Article 7 – Breach of discipline requiring at least one semester suspension

e) Cheating and aiding others to cheat in exams,
f) **Plagiarism** in seminars, theses and publications
Cheating and Plagiarism

Disciplinary action is taken regarding a student suspected of cheating or plagiarising during an exam, an assignment, a report or any other assessment.

Should the student be found guilty, in addition to the appropriate penalty, the student is given grade zero from that particular assessment.

All projects, lab reports, homeworks and the like, having an affect on the overall grade for that course are all considered an “exam” in view of the Student Code of Discipline.
So what is plagiarism?

When is it wrong to

• Collaborate with others

• To make use of the library or some publication on the internet

• To make use of some assignment you prepared for English when preparing you assignment for History?
Which of the following are plagiarism?

• I didn’t understand what was required by the assignment so I asked my class-mates.

• I didn’t understand how to solve the given homework so I asked my class-mates.

• I took my assignment to BilWrite for them to help me with the English context.

• I copied that paragraph directly revealing my own ideas I found on the internet.

• I am taking private tuition for this course. I have improved quite a lot.

• My private tutor also assists me with my homeworks for the course.

• I was not sure of my solution so we compared our solutions with a class-mate.

• I explained my approach to the problem. It turned out that my friend had also used a similar approach.

http://bilwrite.bilkent.edu.tr
Plagiarism? I can’t believe it!

• The student copies that paragraph from the source without stating its reference.
  -> Certainly plagiarism. This was easy.

• The student copies that paragraph from the source but by mistake cites its reference as some other source.
  -> Plagiarism! Who would have guessed?

• The student consults two textbooks just to “gain inspiration,” but completes the assignment alone. Since he has not “copied” any code/text, he does not need to cite these textbooks.
  -> really?

• The student asked to write a C++ program finds equivalent code in a Java textbook, converts this to C++, and submits the program
  -> this is cheating!
Practical tips from the Undergraduate Rules & Regulations

• The normal duration to complete your undergraduate studies is 4 academic years. (Time spent in the English Language Preparatory School is not included)

• The maximum duration as a “Full-time Student” is 7 academic years.
What should I do if I have missed an exam?

- For reports issued elsewhere than Bilkent Health Center, you need to get your medical report approved at Bilkent Health Center...
  - Within at most 1 working day after termination of sick leave if sick leave is for 3 days or less,
  - Within at most 3 working days after termination of sick leave if sick leave is for more than 3 days.
  - If you have a final exam during your sick leave, approval must be made within at most 2 working days preceding that exam!

- Submit your report to your Dean within at most 3 working days after the last day of your sick-leave, at most 2 working days if you have missed a final exam.

- No make-ups can be given for exams missed if your report is late or has not been approved by Bilkent University Health Center.
Attention:

A student on sick-leave cannot take exams or join classes during these days!

Any assessment taken for another course during those days is not graded.

Which exams can I get a make-up for?

• Students with a valid medical report who missed a **Midterm** due to illness are given a make-up exam.

• Whether or not to give a make-up for any other form of assessment such as a quiz, a homework, etc. is at the discretion of the instructor.

When will the make-up take place?

The schedule for a make-up is set by the instructor. However, make-ups should be finished and graded no later than the last day of instruction for that semester.

If your sick leave extends beyond 5 days after letter grades are announced, no make-up is given!
Students may apply for leave of absence for a full semester up to the last day of registrations.

Half of your full tuition fee you deposited before you apply, is refunded if your application is approved.

You may apply for at most 2 semesters at once, and for at most 4 semesters during your whole student life at Bilkent.

Leave of absence is included in the duration of your undergraduate studies, except any leave used during the English Preparatory Program.
What are the limits to the number of courses I may take?

For the Faculty of Engineering the “normal” course-load is at least 5, at most 6.

You may take at most 2 extra courses on top of your normal course-load -> 8 courses,
3 extra courses if you at the point of graduating -> 9 courses

A student may take less number of courses than the normal course-load. The minimum number is 1 (one) course. However...
If your course-load falls below 5...

- Suspension / degrading of scholarship status may occur (check with the Registrar’s office for details)

- Non-credit courses, courses GE100 and GE251 and courses withdrawn are not counted towards your course-load

- In one academic year, you may withdraw from one course in one of the semesters, thus falling to 4 courses, provided that your course-load is at least 5 curriculum courses for the other of the two semesters.

You may withdraw from at most 4 courses throughout your undergraduate student life at Bilkent, including department transfers.
What else to keep my scholarship?

- Other conditions such as the Annual GPA, etc may apply

- Different for international students and Turkish nationals

- Always check with the Registrar’s Office when in doubt!
Honor- High Honor students

• Semester GPA 3.00 – 3.49 and CGPA >= 2.00 Honor, Semester GPA >= 3.50 and CGPA >= 2.00 High Honor

• Course load must be at least 4. Courses withdrawn, non-credit courses and GE100, GE251 are not included in the course load.

• Upon graduation, students with CGPA 3.00 – 3.49 graduate as Honor students. CGPA >= 3.50 graduate as High Honor students.
Merit Scholarships

• At least 5 “new, credit, curriculum courses”
  -> “curriculum” course -> “must” and “courses listed as electives by the department”
  -> “credit, curriculum course” -> non-credit courses, W, GE100, GE251 are not counted
  -> “new, credit, curriculum course” -> courses taken previously and are re-taken now are not counted

• Annual GPA >= 3.30
• For the purpose of Merit Scholarships, this is calculated as:

\[
AGPA(merit) = \frac{\text{sum of points for the fall semester} + \text{sum of points for the spring semester}}{\text{sum of credits for the fall semester} + \text{sum of credits for the spring semester}}
\]

Not counting any courses repeated to raise a grade!

• All international students (with a scholarship or not) + all non-scholarship Turkish students within the top 5% among all these students of that department are eligible for a merit scholarship for the following academic year including the Summer School.

Check the «scholarship» pages for more information!
Summer School

- You may take maximum 2 courses, 3 if on point of graduating

- You may take new courses or re-take previous courses regardless of limitations depending on the standing

- Intensive language courses are regarded as a single course

- CGPA and Annual GPA re-calculated after the Summer School.

- The fee is based on number of credits. Full scholarship students are exempt of tuition fees. Partial scholarship students pay in proportion to their waiver.

- Taking courses abroad? You may be able to transfer courses taken in another country. You need to apply to the Dean 3 weeks in advance!
How do we calculate those things...

I am in my first semester. The courses I am taking are:

Honor student! Wow!

Attention:

CGPA: 30.1 / 19 = 1.58

CGPA < 1.80 so the number “new” courses you may take is limited!

New courses above add up to 13 credits!

Leave TURK112 to a future semester...

Since this is your second semester at your department you may take new courses up to 11 credits plus one elective and GE251

Would withdrawing PHYS101 and HIST209 made any difference? **Attention**...
What about Withdrawing?

Attention: W will be considered a “new course” as of 2016-2017!

CGPA: 16.4 / 11 = 1.49

CGPA < 1.80 restriction to the number of new courses applies!

Since this is your second semester at your department you may take new courses up to 11 credits plus one elective and GE251

A total of 20 credits!

You need to choose amongst these to bring it down to a total of 11!

Attention: Please consult ASCU before attempting to Withdraw!
Next semester?

**CGPA >= 2.00 (Satisfactory)**
- Repeat any F courses
- W courses are NEW! You may take any new course you wish
- Any courses B- or under (taken at most 2 semesters ago) may be re-taken if you wish

**CGPA 1.80 – 1.99 (Probation)**
- Repeat any F courses
- W courses are NEW! Your new courses may be:
  - if this is your second semester, up to 14 credits of new courses
  - max. 10 credits of new courses thereafter
    - + 1 elective and GE251
- Any courses C- or under (taken in any semester) may be re-taken if you wish

**CGPA < 1.80 (Unsatisfactory)**
- Repeat any F courses
- W courses are NEW! Your new courses may be:
  - if this is your second semester, up to 11 credits of new courses
  - NO new courses thereafter except
    - + 1 elective and GE251
- Any courses C- or under (taken in any semester) may be re-taken if you wish
Re-taking a non-F course to raise your grade

- If CGPA >=2.00 you may re-take courses which..
  - you took during the last 2 semesters
  - and you got B- and below
  - if there are enough seats left
  - (last day of the add-drop week)

- If CGPA < 2.00 you may re-take courses
  - whenever taken
  - and you got C- and below
  - during registrations and the add-drop week

Repeating a must course: Repeat the same course
Repeating an elective: Repeat the same course or another course within the same list

Attention: If switching elective courses, the elective counts must be fulfilled first!
Repeating an “extra course” Not compulsory, these may remain F or W
Can I object to my grade?

• Objection to a grade for a certain exam or the letter grade for that semester must be made directly to the instructor, within at most 5 working days after the grade is announced.

• If the instructor determines a mistake in the grade, he/she must take action for correcting the grade within at most 14 days, or until registrations for the new semester. No corrections can be made after this date.

• No correction can be made for a W!

**Attention: Withdrawal operations are done by the student himself. There is no going back!**
What is pre-registration?

Non-committal but necessary to ensure there are enough sections to be opened for this course!

You pre-registered for FRE111, you decided not to take the course after all -> no problem

You have registration priority for pre-registered courses! The system automatically registers you for these courses before registrations start (before seats fill up)

Departments set their quota and number of sections accordingly...
Should I take this course?
Should I drop this course?
Should I withdraw this course?
What if I fail this course?
What if my GPA/CGPA drops?

ASCU is here to guide you. Don’t hesitate to come to us 😊
